Heads

**Slotter Heads,
Score Heads,
Trim Heads,
Pull Rolls,
Slitter Collars,
and thousands
of other parts.**

Our heads are designed for strength and durability. Machined from solid steel, our t-slots will bend before they break. Our heads are designed in two halves that lock together offering easy replacement. Before they are shipped, our inspection team checks them for error so that you receive a quality part. If you need special customizations, our engineers can make the alterations you need. Our extensive inventory contains many heads on the shelf to provide you with a quick turn around on orders.
